

## HARDING WILL ANSWER OPPONENTS' CHARGES

### COMING SPEECH CONSIDERED OF VITAL IMPORT

Senator Will Reply To  
Critisms Of  
Democrats.  
WILL CLARIFY ISSUE  
Message Will Be Of Great  
Interest To Foreign  
Nations.

Marion, O., August 21.—From the shady confines of his Mount Vernon Avenue front porch, Senator Warren G. Harding will reply this week to the criticisms of his party's stand on international questions which Governor Cox and Franklin D. Roosevelt have been shooting broadcast for two weeks in their travels.

Senator Harding will deliver a speech to Indiana Republicans next Saturday on the league of nations and other international questions. At his headquarters today, this forthcoming speech was characterized as his most important utterance since the speech of acceptance in which he pledged himself and his party to "an association of nations" to supplant the Wilsonian league.

Not only will the speech clarify the issue, it is said, but it probably will be read in the capitals of Europe with interest almost equalling that with which it will be received in this country.

Senator Harding has steadfastly declined to comment on the critical Polish Russian situation, or on the administration policy therein. It was intimated today, however, that his forthcoming speech will take this too, into account.

Three other speeches are carded for this week—one to a group of New York actors tomorrow, one to Wyandott county Republicans on Wednesday and one at a railroad men's picnic at Glion late Friday. In preparation for this busy week, no engagements of any consequence were scheduled for today. Senator Harding has as guests Colonel George Harvey, the irreconcilable opponent of the league, and Joseph Medill Patterson, one of the editors of the Chicago Tribune. Colonel Harvey probably will remain until the middle of the week.

Major Frank Knox, N. H. floor leader for the Wood forces at the Republican convention, was one of Senator Harding's callers today.

New England, he told the candidate, was not even "debateable ground," this fall and would undoubtedly go Republican by vast majorities. Connecticut is being claimed by the Democratic disappointment.

"Wood supporters every where are getting loyally behind the Harding-Collidge ticket," he declared. "Governor Cox is staging a political vaudeville act which is proving of immeasurable benefit to the Republicans."

"Wood supporters every where are getting loyally behind the Harding-Collidge ticket," he declared. "Governor Cox is staging a political vaudeville act which is proving of immeasurable benefit to the Republicans."

## RECEIVER IS SOUGHT FOR BROTHERHOOD OF RAILWAY TRAINMEN

Striking Yardmen Sue Organization In Columbus, Ohio.

Columbus, Aug. 23.—Appointment a receiver for the Brotherhood of Railway Trainmen and an accounting and distribution of the brotherhood's trust fund, estimated at \$10,000,000, is asked in a suit filed in Franklin county courts by B. B. Callahan, president of the Columbus Yardmen's association.

The suit was brought by Callahan as an individual policyholder, but in effect is action on the part of the Chicago Yardmen's association, the "insurgent" organization which participated in the recent strike of yardmen. There are 145,000 members of the organization, according to the petition.

The petition asserts that all members of the brotherhood expelled for participation in the alleged illegal strike have been deprived of a share in the trust fund, which they helped to create. Action was brought here so that personal service might be obtained on Val Fitzpatrick, vice president of the brotherhood.

## WIRELESS MESSAGE HEARD AROUND GLOBE

Washington, Aug. 23.—The first wireless message "to be heard around the world" was received by Secretary Daniels from the Lafayette radio station at Bordeaux, France. The message was the first to be sent from the Lafayette station, the largest in the world, which has just been completed by the United States navy and is under the radio official test before being turned over to the French government for operation. The message received by Secretary Daniels follows: "This is the first wireless message to be heard around the world and marks a milestone on the road of scientific achievement."

## GREAT BRITAIN ANNOUNCES PLANS OF FREEING EGYPT

First Intimation Of Act  
Printed In English  
Press.

TERMS ARE GIVEN  
Will Recognize Independence  
and Sovereignty  
Of Nation.

London, Aug. 23.—Great Britain's plans for freeing Egypt, according to the Daily Herald today, include the following:

"1—Abolition of the British protectorate.

"2—Great Britain to recognize the independence and full sovereign status of Egypt.

"3—Egypt to have full control of her foreign relations.

"4—The British army of occupation in Egypt to be completely withdrawn.

"5—British officials in Egypt to join the Egyptian government service or leave the country."

These terms the Daily Herald stated, were included in the settlement which Lord Milner, representative of the British government, had effected with the Egyptian nationalists. Lord Milner headed a commission that went to Egypt in February to confer with the Egyptian nationalists.

The first intimation that Great Britain contemplated granting full independence to Egypt was conveyed in an announcement printed in the British press today.

## COX MAKES REPLY TO HAYS' ADDRESS ON CAMPAIGN FUNDS

Seeks Information Regarding  
Republican  
Money.

Dayton, O., Aug. 23.—Governor Cox has made a request on Will H. Hays, chairman of the Republican national committee, for information regarding Republican campaign funds.

The Democratic candidate declared that Mr. Hays' statement regarding Republican funds was not a reply to the governor's charges that the Republicans were raising a fund of \$15,000,000.

"I was very much gratified," said Governor Cox, "that Mr. Hays made his response, but as I read his statement it is no denial. He says the regular preliminary estimate is \$3,000,000. That doesn't mean anything. I want Mr. Hays to tell us into how many subdivisions the country was divided by the Republican managers. I want him to tell us how many subdivisions there are and what territories each covers. And incidentally I want him to tell what the quota was that was imposed on each district."

"Mr. Hays has spoken publicly often about these quotas and the public is entitled to this information. The senate investigating committee will insist on it and why not have it now?"

In addition to this statement Governor Cox said that in his speeches late this week he would deal further with the question of Republican finances. He said he had evidence to support his charges that \$15,000,000 was the Republican "low mark, with the sky apparently the limit."

## PRICE OF SUGAR WILL GO LOWER OFFICIAL BELIEF

Department Of Justice Refuses Pleas Of Refiners and Jobbers.

CANNOT STOP SLUMP  
Sugar Scare Of Few Months Ago Thought To Be Artificial.

Washington, Aug. 23.—Sugar retail prices have not touched bottom, but are certain to drop to lower levels, with the market heavily glutted with stocks far beyond the normal demand, it was announced at the department of justice today. Ignoring appeals by refiners and sugar wholesale jobbers for the department's intervention to stop a further slump in prices. Officials said no possible action could be taken to relieve sugar dealers who have overbought and are now losing heavily.

"Speculators and others caught in this crash must bear the losses resulting from their speculative activities," said Assistant Attorney General John Crosby, in charge of profiteering prosecutions.

"Speculators who bought at a high price expecting still higher prices to prevail, are the only ones yelling for our help," Crosby said. "We note the consumers are not doing any kicking."

The department of justice today advised consumers against hoarding sugar, or attempts to overstock at the present prices. Those who buy sparingly to meet their usual needs probably will be rewarded later by the saving expected through lower prices. Officials considered it significant that Cuban raw sugars for delivery in January and succeeding months are being quoted at approximately 12 cents a pound.

Government commercial experts studying the sugar drop, now are convinced that the sugar shortage scare created several months ago was largely artificial and that prices reached unprecedented levels through the manipulation of the speculative element.

## INSPECTOR SLAIN; RIOTING FOLLOWS IN BELFAST CITY

Organized Onslaughts Made  
On Irish Constabulary.

Belfast, Aug. 23.—Rioting followed the assassination of Inspector Swaney at Lisburn. An attempt was made to wreck the shop of a Sinn Fein leader within 40 yards of the scene of the crime, and only intervention by Ulster volunteers prevented.

The crowd then attacked the residence of a Nationalist Republican, who fired from a window. His assailants returned the fire and wounded him. A number of houses of Nationalists were burned by the mob.

Large crowds assembled outside the Cork jail and prayed for the hunger strikers there. Special prayers and masses for the men were offered in all the Catholic churches of Cork.

Official telegrams received at Dublin indicate that there have been organized onslaughts against the Irish constabulary, and that thus far during the week-end seven have been killed. A patrol sergeant and three men at Dundalk were suddenly confronted by six armed men, who fired. Constable Brennan fell dead and Constables Isbell and Witherden, recruited from the English army, were badly wounded. Sergeant Maunsell was shot dead at Macroom, County Cork. A police patrol was ambushed near Nassa, County Kildare. A constable was killed and a sergeant seriously wounded; two constables are missing. Constable O'Hanlon was shot dead at Killybeg.

## OIL MERGER MADE UNDER CANADIAN LAW

New York, Aug. 23.—Official announcement was made here of the conclusion of negotiations for the merger of the International Petroleum company, Limited, a subsidiary of the Standard Oil company of New Jersey, and the Tropical Oil company, Limited, under the laws of Canada, with an authorized issue of at least 100,000 preferred shares, par value \$5, and at least 7,118,138 common shares of no par value. The Tropical company has outstanding approximately 1,575,000 shares and the International has issued 2,606,802 shares of common and 100,000 shares of preferred.

## LEADERS IN SUFFRAGE STRUGGLE

The ratification of the Suffrage Amendment by the State of Tennessee as the necessary thirty-sixth state ended the fifty-year fight by the women of this country for the ballot. Susan B. Anthony, mother of suffrage, founder of the Women's Suffrage Association, is shown in the large photograph. In the insets are shown prominent women who carried the suffrage fight to victory. Mrs. Carrie Chapman Catt, of New York, is president of the National Woman Suffrage Association and of the International Suffrage alliance. Mary Garrett Hay has long been one of the most forceful personalities in the struggle for women's rights, while Mrs. John Glover South, of Kentucky, chairman of the Kentucky branch of the Women's Suffrage Party, has also been an indefatigable worker of suffrage.

## SCHOOL BUILDING PLANS INDEFINITELY POSTPONED

Half Day Sessions In Central and East Main Street Buildings Will Be Established To Care For Housing Of Pupils.

As a means of meeting the financial and housing condition of the schools, high schools will have the morning shift from 7:30 until 12:15. From 12:30 until 4:30 the grades will occupy the same rooms. Other school buildings in the city will not be affected. They will have their regular sessions.

Arrangements have also been made by the board of education with the vestry of Christ church, by which the parish house on Whiteman street will be rented for the use of two of the younger grades. The temporary structure on the Central school lot facing Church street, houses four grades.

J. W. Santmyer, president of the Board of Education, said Monday that all school building plans have been suspended indefinitely, owing to the general economic situation, and the serious financial condition of the city, and no bonds will be issued until these clear up.

The only extraordinary expenditure made by the board of education this year, Mr. Santmyer says, is the necessary repair of the heating plant of Lincoln school.

"I believe that all elements should work together to keep down expenses as much as possible, owing to the situation in which we find ourselves, and the schools will do their share along that line," said Mr. Santmyer.

"Should there be an improvement next year we may find it necessary to eliminate the manual training, domestic science, and such departments as have been added to the schools in recent years."

Expenses of the schools have mounted so rapidly, owing to the general economic situation that the board of education is meeting this year a greatly increased pay roll and much higher expenditures for coal. Cost of making repairs is also a big element in the increased expenditures of the school.

The pay roll for 66 teachers will be \$75,000 the coming year. While pay of the local high school teachers, according to Mr. Santmyer, is about up to the average being paid over the state, Xenia grade teachers are still underpaid. In order to hold high school teachers it has been necessary to meet salaries that are being paid in other cities. Even at that rate, several teachers under contract here, made an effort to be released after signing up with the local schools last spring, because they were offered better salaries elsewhere. The board of education is paying \$11 a ton for 600 tons of coal to heat the schools this year.

Expenses of the schools have mounted so rapidly, owing to the general economic situation that the board of education is meeting this year a greatly increased pay roll and much higher expenditures for coal. Cost of making repairs is also a big element in the increased expenditures of the school.

## PONZI ON WITNESS STAND SAYS AFFAIRS IN CHARGE OF GIRL

Turns Over To the Federal  
Officials Part Of His  
Assets.

Boston, Aug. 23.—Charles Ponzi turned over to federal receivers part of what remains from the millions of dollars which he received from investors in his discredited financial operations and went on the witness stand to tell about the rest. His replies to questions indicated ignorance of the conduct of his business affairs. He did not know the names of his agents, was not familiar with his accounts in several banks and was in doubt how many persons were authorized to draw checks in his name. He said he left most of these things to Miss Lucy Meli, the 18-year-old girl who was manager of his office.

The checks and securities which Ponzi handed over to the receivers did not greatly exceed \$1,000,000. Edwin L. Price, the accountant who has been conducting an audit for the federal authorities, again estimated Ponzi's liabilities at \$7,000,000. Ponzi said he had additional assets.

## POLES CAPTURE FORTY THOUSAND PRISONERS; RETAKE NINE CITIES

Two Russian Divisions Cut off By Poles and Capture Expected Soon; "Battle of Warsaw" Ended but Fighting Rages East of City.

RED FORCES RESISTING MORE STUBBORNLY

Retreating Reds Burn Bridges and Buildings Along Way; Report States That Bolshevik Armies Fully Dispersed By Defenders.

Warsaw, Aug. 22.—via London, Aug. 23.—The recapture of nine important cities from the Russians was reported by the Polish war office tonight. The Poles are advancing on Bielsk, Russian great headquarters in the field. The official statement says:

"Mlava, Rosean, Przasnysz, Ostro, Mazowiec, Bielsk, Brest-Litovsk, Cholm and Hrubieszow have been taken by the Poles. We are advancing upon Bielsk. We strongly hold the Bug river line."

The Polish war office makes special mention of the fact that General Beggand, head of the French military mission, participated in the successful Polish counter offensive.

The Polish communique shows that the Russians have been pushed back till their lines southeast of the city are now 100 miles removed from the capital. On the northwestern side the Russians are 80 miles away; on the north 60 miles away and on the northeast 100 miles away.

Warsaw, Aug. 22.—via London, Aug. 23.—The number of Russian prisoners captured in the great Polish victory was estimated tonight at 40,000. The trophies and booty taken by the Poles have reached such enormous proportions they can not be estimated. Twenty one bolshevik divisions were represented among the prisoners.

The third and fifteenth Russian divisions commanded by Prince Gajachan, have been cut off between the Vistula river and East Prussia and their surrender is momentarily expected.

Hard fighting continues on the front east of Warsaw but the "battle of Warsaw" has ended. The Polish counter offensive which not only stopped the Russians but rolled them back all along the line is stringing into its second phase, as the Poles have begun to meet stronger resistance from the reds. The Polish advance has slowed down owing to the lack of Polish cavalry to follow up their recent victory.

The Polish government has been unable to communicate with Minsk and thus notify the Polish armistice and peace delegates of the victory over the Russians. The government has been getting its Minsk news by picking up wireless messages from Vienna and Nauen.

The more hot-headed advisers of the government are clamoring for a decisive military victory before peace is made.

The cry of "on to Vilna" and "on to Kovno" is now heard.

Dispatches from the front north and east of Warsaw dated Saturday night, reported that the Russians had been completely dispersed. The Russians are retreating toward the east along both fronts the dispatches added.

A wireless message from the Russian field station at Grodno to General Budenny's headquarters in northeastern Galicia asking that reinforcements be rushed to the northern battlefield was picked up here. Two hours later a reply from General Budenny was picked up. It read: "Unable to send help. Have hands full in south."

The Poles are moving heavy forces to Brest-Litovsk as the Russians are attempting to regroup for a counter attack in that district. The retreating reds are reported to be burning houses and bridges and destroying railway lines.

## DAYTON POLICE SEEK ROBBERS OF SHOP IN MIDDLETOWN

Pawnbroker With Fractured Skull Found In His Store.

Middletown, O., Aug. 23.—Clarence Bevans, 30, giving his address as Thomopolis, Wmington, and Charles D. Jones of Saltsville, Va., were captured by local police on the Cincinnati and Dayton pike near here in connection with the hold-up and believed fatal assault of Maurice Herrman, pawnshop man of Dayton, this morning.

Bevans and Jones were riding on transient motor trucks bound for Louisville, Ky., having asked the drivers for a ride in Dayton about three blocks from where the robbery was committed. Bevans' coat sleeve was spattered with blood and the driver of the truck, Charles Mausman of Louisville, said that Bevans borrowed gasoline and was trying to remove the stains all the way from Dayton to Middletown.

Prosecutor Mau and Assistant Prosecutor Sharer examined the suspects this afternoon.

..... (Continued on page three) .....

## CHICAGO RIOT LEADS ONE DEATH AND TWO MORE NOW DYING

Police Reserves Called Out To Quell Disturbance in Cafe

Chicago, Aug. 23.—One detective is dead with four bullets in his body, another is believed dying and a third man believed to be a police man lies seriously wounded as the aftermath of a riot that early today brought police reserves to the Pekin cafe, a south State street resort.

Sergeant William Honnessy, a former soldier, died of gunshot wounds, Sergeant Joseph Mulcahey was shot twice in the right side and is not expected to recover. Numerous civilians, men and women were reported to have received minor injuries in the battle, but all of them had been removed when the police, answering a riot call, arrived.

Four women and a number of men are being held by the police for questioning. Two alleged "gun men" are under arrest and one is said to have admitted firing at the detectives.

No accurate details of the shooting have been revealed by the police, but Sergeant Honnessy, shortly before he died, said that he and Sergeant Mulcahey entered the cafe and police business and were fired upon without warning after Mulcahey had presented being taken for a waiter by a patron of the place.

## STOCK COMPANY TO RE-ESTABLISH KING OF GREECE PROPOSED

Millions Solicited In Effort To Return Constantine To Greece.

Paris, August 23.—For the first time in history, a great stock company is being formed to re-establish a former king upon his throne, the one time monarch in the present instance being Constantine of Greece, who is now an exile in Switzerland.

Revelation of the plans in behalf of Constantine was made today, by Greek residents of Paris who allege further that millions of dollars from the vast American fortune of the former Mrs. William B. Leeds are being sought to assist the movement.

M. Streit, former minister of finance in the Greek cabinet who accompanied Constantine into exile in Switzerland is credited with organizing the stock company for the promotion of royalty. M. Streit is said to be soliciting subscriptions from Greeks in all classes of life from the millionaires in Europe to the Greek bootblacks and waiters in the United States.

M. Streit's idea is said to be the collection of money from Constantine's sympathizers for a great propaganda campaign against M. Venizelos. M. Venizelos is premier of Greece, but in reality he is the ruling power at Athens.

MAN ELECTROCUTED

Columbus, O., Aug. 23.—Frank D. Fadley, 41, was electrocuted at the municipal light plant where he was employed. Reaching for a glove, he touched a 6600 volt feed wire. Jerking his arm back, his head hit another wire of the same voltage.

## FRANCE MAKES GREAT STRIDE TOWARD ITS REBUILDING PLAN

Ann Arbor, Mich., Aug. 23.—That France is "coming back" and that she is magnificent in her determination is the message of Prof. A. H. White, head of the department of chemical engineering in the University of Michigan, who has just returned from France.

Prof. White went to France late in June to make a study of a new French process of fixation of atmospheric nitrogen, in a factory near Paris.

"All France is hard at work," he said. "I didn't see an idler in all the weeks I was there. Every one worked and was proud of the fact. Nor was there any talk about a 44 hour week. They were glad to work full time. The crops in the south of France are enormous, and even the north of France, the shell torn section of France which everyone was ready to pronounce would be practically worthless for years to come will produce this year a crop fully 50 per cent of normal. Taken all in all, France this season will raise sufficient food to practically feed her people."

### MUST REBUILD

"The industries are a little slower in getting back. This is due in a large measure to the fact that her factories have to be largely rebuilt, especially in the textile mills, but the government is encouraging this as fast as possible, and to this end has restricted importation. Around Rheims there are mills running. The sugar mills however are hardly any of them at work."

One encouraging thing I read in a French newspaper just before I sailed was to the effect that the returns for certain taxes during July had been more than double what had been anticipated."

The two things most discussed in France today, according to Prof. White, are the coal situation and the Polish situation. "Coal," said he "is bringing 350 francs a ton in France and factories are paying 500 francs a ton to get it. If France gets the German coal as provided for in a recent agreement, she will have 58 per cent of her normal supply of coal this winter."

## BIG CROP OF HAY FEVER JOKES

But Kentucky Man Says People Who Believe to Hay Fever Colony Are Kidding Themselves.

Wouldn't Be Any Hay Fever If Simple Home Remedy Was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a prominent Kentucky city. "But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of Hay Fever jokes would be mighty scarce if people would get three-quarters of an ounce of Mentholized Arcline, and by just adding water that has been boiled, make a pint of liquid that will prove a real help to all who suffer."

"Many of my Hay Fever friends tell me that by starting to gargle and sniff or spray the nostrils a few times a day the expected severe attack often fails to appear, and in cases where it does show up, is very mild and does not annoy."

"It's the same way with Rose Fever. The Better Class of Pharmacists who dispense Mentholized Arcline say that it will greatly modify any attack, even when taken three or four days after hostilities begin."

Go to a real live druggist when you get ready to make a pint for up to the present time there has been little demand for this friendly medicine.

Mentholized Arcline is new in this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

## GASSED AND WOUNDED VETERAN OF WORLD WAR PLIES TRADE AS WAITER AT KILKARE

### EAST END NEWS

Patrons of the porch restaurant at Kilkare Park this summer, are waited upon by a deft, polite waiter of professional tactics and carefulness. They give him their order, note his politeness, perhaps spare a moment to thought of the fact that he walks with a stiff knee, then give him their tip and are gone.

Yet this meek and polite waiter conscientiously carrying out his duties to his patrons has seen man strive against man for supremacy on the battle field, has witnessed death and bloodshed in the barbaric form of the most recent war, and has come back to wait table at Kilkare Park, with gas spots on one lung and a knee-cap stiffened by German shell.

Herman McMichael's home is in Dayton, Ohio. In old Company I, of the Twenty-Third Infantry, he fought through the Spanish American War and served on the Philippine Islands, spending three years in the service of Uncle Sam. Yet his desire and longing for the military was not satiated when war began to spread over all Europe.

In 1915 he enlisted in the Canadian Army, because the Canadians were already fighting and he did not want to wait for the United States. He first served in the 149th Ontario Battalion, later in the 161st, Battalion, and finally, in a desperate effort to leave his training camp at England in the 47th British Columbia Battalion.

In the St. Pierre Valley, between Vimy and Lens, while coming out of Aras into a new trench in 1917, McMichael was gassed. The gas left two spots on one lung that give him an ugly cough and requires that he takes milk and eggs eight times a day. On August 8, 1918, he was blown up at Amiens when a 5.9 shell exploded. The shell cracked the right knee cap and tore loose the cartilage and for three months he was laid up in a hospital.

Returned to this country, McMichael was given treatment by the Ohio State Sanitarium at Mt. Clemens by the Canadian government, from January 8, 1919 to June 15, of that year. Now he is waiting to enter the hospital for an operation on the knee cap that he hopes will straighten out the stiffened joint and restore the leg to its proper use.

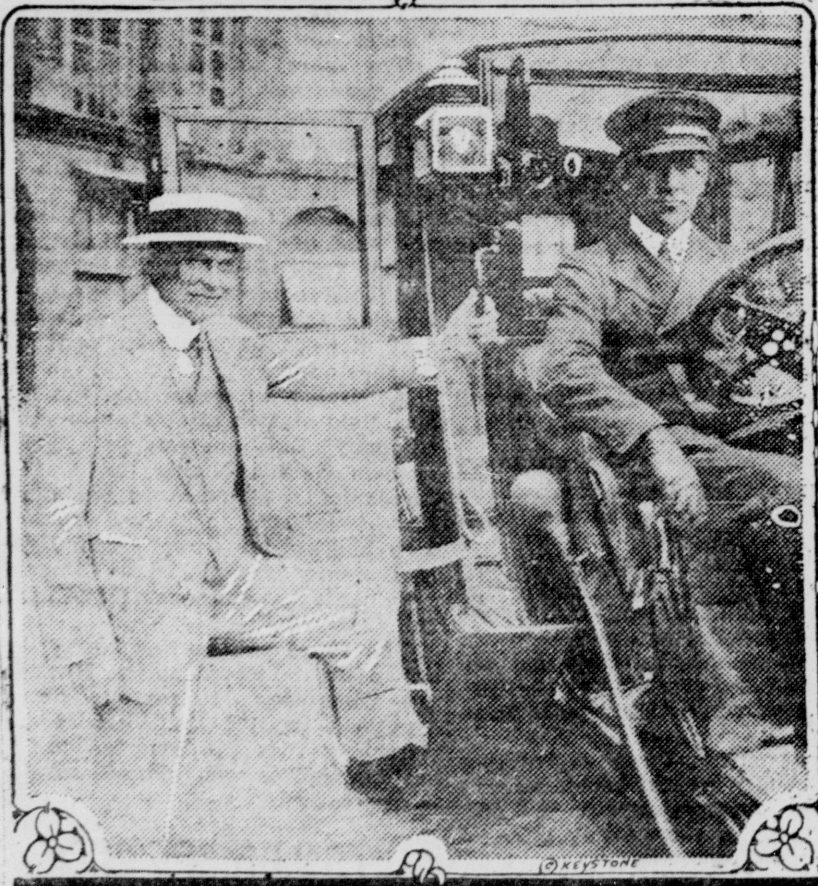

And out at Kilkare Park, "Irish" McMichael, as he was known, a shell-split and gas racked veteran of two wars, deftly plies his chosen trade of waiter: "Yes, sir, I like it rare myself, sir," says he.

### JUDGE GARY RETURNS TO PARIS, FINDS HIS AUTO SPICK AND SPAN

Judge Gary about to board his auto in Paris.

Judge Elbert H. Gary, the American steel magnate, left his French motor car in Paris six years ago. Last month, on returning to the French capital, he was agreeably surprised to find it spick and span. The government had not appropriated it for use during the war.

gay night. Mr. and Mrs. R. J. Watkins, of East Main street, went to Chicago last Sunday to attend the funeral of Mr. Watkins' sister. A play entitled "A Southern Cinderella," will be presented at the St. John's A. M. E. church Friday evening, the 27. The cast of characters is from the more elderly members of the church.

### TWENTY YEARS AGO

The census of enia will not be made known for some time we suspect. The larger cities will be served first and it will take some time to get to Xenia. I am safe to conclude however, that Xenia will make a substantial showing of growth and that our figures will not be far from 10,000 one way or the other.

Charles Greenlease, with his little pink, has been missing from behind the counter at Joe Steinmetz's cigar store the past week. He has not been feeling well and has been taking a rest.

Mr. Harlan Fudge, a tinner, who is employed with Charles Henry, is happy today over an event that will come off this evening about 7:30 o'clock. He is to be married to Miss Stella Williams, and the ceremony is to be performed by Rev. A. C. Turrell.

Station Agent Cox, of the C. H. & D. Was staggered almost off his feet today when he was approached by a man and asked if the regular train stopped here. Sounded rather rather strange to hear an inquiry like that in reference to so important a place as Xenia.

### ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Earache, Neuralgia, Rheumatism, Colds and Pain. Handy tin boxes of 1 tablets cost few cents. Druggists also sell larger "Bayer packages." Aspirin is trademark Bayer Manufacture Monocacetic acidester of Salicylic acid.

### SMILES

He was one of the unsung, one of those heroes who had sailed from the United States just before the armistice and had reached

France just in time to turn around and start back home again. He had never explored inland even as far as Camp Pontanzen.

But the gushing lady who met the ship at the pier in Hoboken, anxious to do something for the boys, didn't know that. She saw him come down the gangplank, and near the Red Cross coffee stand she cornered him.

"Oh, tell me!" she gasped. "Tell me all about it! What horrors you must have been through! What experiences! What soul regenerations! You cannot have come out of it all as you went in! Tell me what great lesson you learned—what wonderful truth must have impressed itself upon your mind!" "Yes'm," answered the soldier obediently. "I found out that lemon ain't no good for seasickness." —The Home Sector.

Said the humorous man in a tramcar: "Has anyone here dropped a roll of notes with a rubber elastic around them?"

"Yes, I have," cried half a dozen at once.

"Well," said the funny man, calmly, "I've just picked up the elastic."

"Marry that young snip? Certainly not! He is only after your money, and he is, in my opinion, a fool."

"You are unjust, father. Harold swears he would marry me if I had not a penny."

"Huh! Then he is even a greater fool than I thought him to be!"

## "Extremely Smart" Describes the New Fall Suits

To mention the smart lines of these tailored modes, is merely to hint at their full beauty. They just seem to fit into the pictured days of Autumn—and like falling leaves, many of them come in brown tones. Here is one of serge, there another of tricotine, and duvetyn repeats itself in many of the models. Bolivia, Yalama, Broadcloth, Silvertone, Peach Bloom, all are shown. No need to attempt to describethem all—one could not do justice to their originality and the many charming ways in which rich embroidery and fur trimming have been brought into play. Colored in Reindeer, Brown, Nankin and Navy.:

Members of the Reformed church and Sunday school remember they will picnic Wednesday afternoon at the fair grounds. Automobiles will be at the church at 3 o'clock to take those out who have no way to go.

Mrs. Fred Deem of Springfield started Wednesday morning for Chester, New Hampshire to spend two weeks with her father Martin Harner and wife.

## MRS. ELLEN DONOVAN DIES EARLY SUNDAY

Mrs. Ellen Donovan, wife of John Donovan, died at her home 126 Hill street, at 8 o'clock Sunday morning, after an illness of nearly three years duration from a complication of troubles. She had been confined to her bed for two years and a half.

Mrs. Donovan was 70 years of age. She was born in Providence, R. I., but she had lived in Ohio since her youth, and for many years was a resident of Xenia.

She is survived by her husband, one son by an early marriage, John Woodhall of Cincinnati, and the following children here, Harry Donovan of the Sohn drug store; Daniel Donovan, Frank Donovan, Mrs. Julia Touhey, Wilbert and Mrs. Lawrence Fuller.

Friends may call at the home Tuesday afternoon and evening. Funeral arrangements will be announced later.

### COMPLETE PLANS

Cincinnati, O., Aug. 23.—United States health officials have completed plans for a five years lease of a sanitarium with a view of establishing a tuberculosis hospital for disabled soldiers the seventh district.

### BANKER DEAD

Cincinnati, O., Aug. 23.—Julius H. Bauer, 57, vice president of the French-Bauer Company is dead from forty years has been the standard remedy for these ailments.

## ONE HUNDRED AND SIX ATTEND FAMILY REUNION ON SUNDAY

One hundred and six persons were present at the annual reunion of the LeValley family, which was held at the county fair grounds Sunday.

Following the picnic dinner which was served at noon in the dining hall, a short program was rendered, a feature of which was a history of the LeValley family in this country, which was written and read by Attorney W. A. Paxson of Jamestown, and an original poem written by Mr. Paxson. Addresses were also given by Attorney W. S. Paxson of Cincinnati, Burdette Wilson of Sabina; L. T. Cummings of Xenia; Harry Sanders of Jamestown, and Guy LeValley of Ridgeway. Readings by Miss Katherine LeValley and Mrs. Ruby Crawford of Indiana, were much enjoyed.

According to the family history prepared by Mr. Paxson, John Jean LeValley ancestor of this branch of the family, whose name has been anglicized LeValley, left his native France April 26, 1777, as a companion to LaFayette, and took an active part in the struggle of the American colonies for independence. Mr. Paxson eulogized the patriot, and spoke of his descendants who had gone to France to fight for the freedom of that country and the rest of the world in the war with Germany.

In commemoration of the date upon which their ancestor landed upon the shores of this country, Mr. Paxson suggested that June 14, now observed as national Flag Day, be the date upon which the gatherings of the family are held in the future. Because that is not so favorable a time of the year for the gathering, he held the family selected August 30, 1921, as the date for the next reunion.

People from a distance attending the reunion were: Mr. and Mrs. Jas. LeValley, Mrs. Anna LeValley, Clyde LeValley and Guy LeValley of Ridgeway, O.; Mr. and Mrs. Melvin LeValley, Mrs. Ruby Crawford and daughters, Ruth and Paula of Dunkirk, Ind.; Mr. and Mrs. W. S. Paxson and children, W. S. Jr., and Linda of Cincinnati; R. Gray, Mrs. Phoebe Gray; Mr. and Mrs. Carl Duncan and son, Donald; Mr. and Mrs. Ralph LeValley and daughter, Miss Ruby Hussey, Mrs. Myrtle Trabee, and P. S. Belden of Dayton; Attorney W. A. Paxson, Harvey Sanders of Jamestown; Mr. and Mrs. Joseph Wilson; Burdette Wilson, of Sabina, and Ada Wilson of Hamilton.

### BETTER BABIES

The crusade for better babies has spread from coast to coast, and taken firm hold of American Mothers. Few women realize how much the ill health of the mother influences the unborn child, both physically and mentally. Women who suffer from mysterious pains, backache, nervousness, mental depression, headaches, etc., should rely on Lydia E. Pinkham's Vegetable Compound made from French-Bauer Company is dead from forty years has been the standard remedy for these ailments.

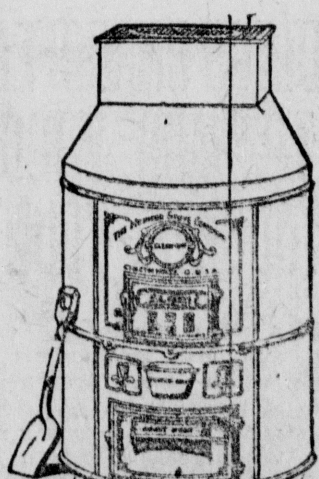

## OVER 100,000 HAPPY FAMILIES

in every state in the Union  
—in your own neighborhood

—have summer warmth in their homes in coldest weather with the patented Caloric Pipeless Furnace.

What a magnificent tribute to Caloric leadership and success! Can you afford to try out imitations or heating experiments when you can get the genuine time-proven Caloric?

The Caloric is the product of The Monitor Stove Company, Cincinnati, Ohio, makers of quality heating appliances for 101 years, and today largest manufacturers of warm-air furnaces in the world.

The Manufacturer's guarantee —70 degrees warmth in your home in coldest weather or money back. Our personal guarantee—you must be satisfied. Place your order now for early installation so we can give you the very best service.

## SCHOOL BUILDING PLANS INDEFINITELY POSTPONED HERE

The local school finances are being helped out this year by the legislation effective now for the first time which provides aid for the school from the state and county.

In 1920, the levy as fixed by the purposes from Xenia city school district was \$5.40 on every \$1000 of valuation. Nothing was received from the state or county.

In 1920, the levy was fixed by the budget commission is 7.20 on every \$1000 of valuation. Of this \$4.40 is from the local school district, \$1.80 from the state, and \$1 from the county.

In 1919 on a duplicate of \$12,200,000, in round numbers the schools received for all purposes \$65,000.

This year, on a duplicate of \$13,200,000, at a rate of \$7.20 the local schools will receive for all purposes \$95,000.

When the question of obtaining more room for the schools this year was a subject of discussion, the recently abandoned building of Xenia Theological Seminary were seriously considered by the board of education. It was impossible to make a contract to rent the new building, and the school board made an offer to the seminary board to purchase both buildings for \$17,500. This offer was refused.

## FAREWELL TENDERED REV. MCCRACKEN IN UNION SERVICES

Following the union service which was held at the Second United Presbyterian church Sunday evening, a farewell was tendered to the Rev. J. O. C. McCracken, who is retiring as pastor of the Presbyterian church to accept a charge in Altoona, Penn.

The Rev. Charles W. Bennett, as president of the Ministerial Association took charge of the affair at the close of the service. It was arranged as a surprise to Mr. McCracken and a testimonial to him from his friends throughout the city which he has made during his brief pastorate here.

The Rev. Charles P. Prouditt, pastor of the Second U. P. church, was the first speaker, representing the ministers and the churches. City Manager Kenyon Riddle, who is a member of Mr. McCracken's congregation, spoke for the citizens, and Mr. McCracken made a brief response.

The Rev. Mr. McCracken was the preacher at the union service, which was largely attended. His text was chosen from John 24:31. "Their eyes were opened and they knew Him, and He vanished out of their sight."

## Flexible Plan is Fair

The more you know about the flexible plan under which this association operates, the surer you will be of its advantages and its absolute fairness.

When the current rates for money are high, it can pay its deposits accordingly. Now it is paying

### 6 per cent on Time Deposits

Thus their money is earning the highest interest compatible with safety and convenience. No worry and no trouble attach to these deposits. Interest checks are mailed every six months.

Security is unquestioned. Let us invest your money in more homes for Columbus people. Write for circular describing our Flexible Plan.

## HOW ENGLAND IS GETTING ALONG WITH HER OBSTREPEROUS CHILD IRELAND.

The disorders, amounting almost to Civil War, continue in Ireland. British officers are killed daily. It is very apparent that the crisis is so threatening that immediate radical steps for betterment of conditions cannot be long delayed. We sometimes think we have more than our share of disorders in this country, but our troubles are only as a drop of water to a bucket full, when compared with England's. Let us not add to her perplexity by "butting in." Hands off should be our attitude.

The Irish coercion bill, providing for drastic action by the government in an effort to quell the disturbances in Ireland, was passed by both houses of parliament and approved by the king. By this the government means to cease quibbling with the trouble makers in Ireland and bring to an end the reign of terror there or know the reason why.

The Ulsterites have threatened again and again that unless they and their property are protected they will take things into their own hands and make war on the Sinn Fein in earnest.

The south of Ireland comprising mainly the Catholic elements declares its independence from Great Britain. The Protestants of the north Ulster refuse to bow to the rule of the Catholics, and call on England to save them from being separated from the mother country. Premier Lloyd George promises that whatever happens Ireland will not be allowed to leave the empire. Arms and ammunition will continue to be sent to Ireland for use by the troops. Railway men who refuse to handle them, he says, will be instantly dismissed.

The bill has aroused Irish sympathizers to a spirit of frenzy. Joseph Devlin, nationalist member from Belfast, created such a disturbance in the house of commons when the bill was being considered that he was suspended. Alexander Carlisle, another native of Belfast, solemnly gave warning in the house of lords that England and not Ireland would be the one to suffer from the new law. T. P. O'Connor, president of the United Irish League of Great Britain, assailed the law as "the worst coercion act ever proposed in the British parliament" or in any country in the modern world.

## SAYS THE LEAGUE PLAN IS HIGHLY IDEAL AND NOBLE, BUT THE WORLD WAS NOT READY FOR IT.

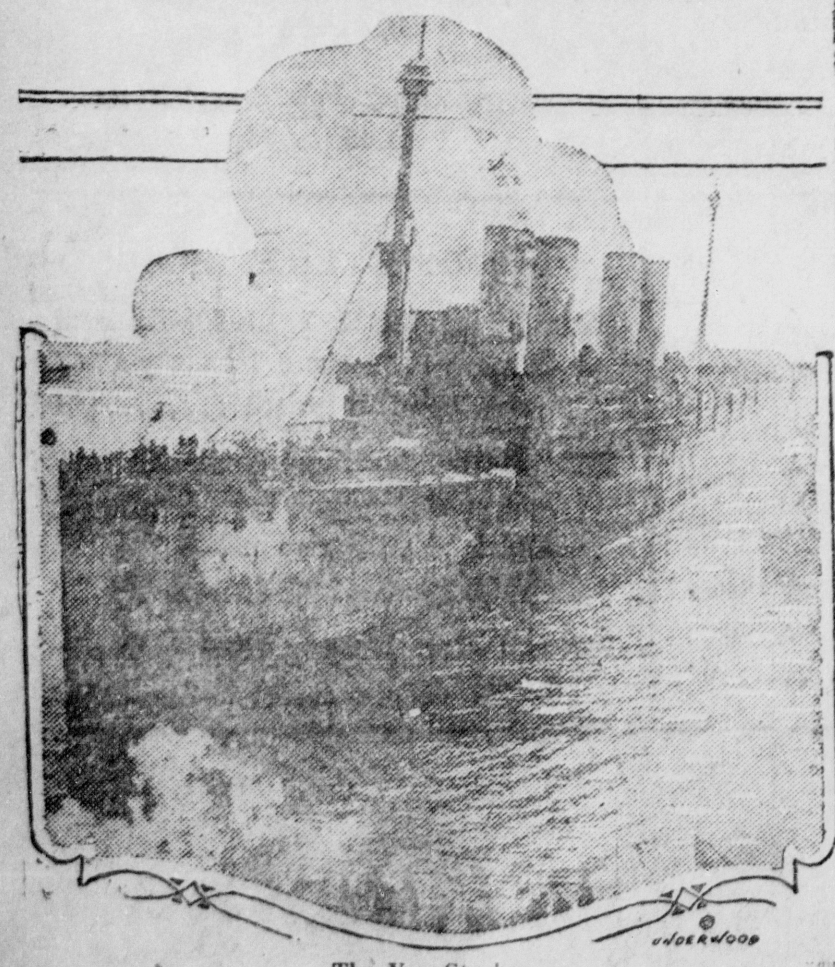

Governor Cox, in going to "the Schoolmaster in the White House" for his instructions, did exactly what the Republicans most wished he would do; he thereby put himself on the defensive and deliberately exposed himself to the enemy's drive. Cox, as governor of the great state of Ohio, has been so pre-occupied that he has not been able to follow all the ins and outs of the peace treaty fight at Washington. In his speeches he has made a number of statements which show an almost childlike unfamiliarity with the facts. Harding on the other hand was in the very thick of the fight and he is able to speak with both knowledge and truth.

The donkey is used as the symbol for the Democratic party. We must say that it was a truly asinine foolhardiness which led the party this year to adopt as the decisive issue an issue like the peace treaty. The opposing candidate knew all about this issue but their own candidate was so uncertain that he could not answer questions on the subject and that he had to go to the president before he could express himself.

We say this with great regret; we had hoped for an evenly-matched, fair-and-square contest this year in which domestic questions would be the deciding elements—but now the league must be the issue, and all other matters must be side-tracked and held up for that. The question of peace should never have been injected into politics at all; the allied armies should have continued their advance till they could dictate peace in Berlin. Peace should have been an accomplished fact within a few days after the armistice of November 11, 1918.

But President Wilson insisted that the league of nations should be "inextricably interwoven" with the peace treaty and that the world should take both or neither. His intentions were the very best; his league plan is highly ideal and noble, but the world was not ready for it.—The Pathfinder, Washington, D. C.

## FORMER GERMAN LINER WILL MAKE ROUND WORLD TRADE CRUISE FOR U. S.

The Von Steuben.

The former German liner "Von Steuben" is being fitted out in New York for a trade cruise of twelve months all around the world. She will be christened "The United States" and will carry American goods into every port of importance on the civilized globe.

## THE BETTER HALF

## BAD FINANCIAL DEPRESSION HAS BEEN AVOIDED IN COUNTRY DECLARES AUTHORITY

Ann Arbor Mich., Aug. 23. — Prof. David Friday, professor of economics in the University of Michigan, and acknowledged to be one of the greatest authorities on economics in the United States recently expressed his belief that the period of depression had been averted which last spring threatened to descend upon the country this fall.

Though this period of depression might come in a year or two, the fact of the temporary averted at this time would tend to reduce its severity, he believes, and he predicts for a certainty that never again will the country suffer from panic as it suffered in the great panics of 1873 and 1893-4.

### CONDITIONS BETTER

"I do not believe there will be a very serious depression this fall," said Prof. Friday. "It looked threatening last spring, but the situation has changed materially since then. At one time it looked as though a panic could hardly be averted this autumn."

"The elements in the situation last spring which promised a depression this fall were four in number: (1) The bad outlook for crops. Crops are one of the most important independent determinants of business conditions and a bad crop situation might well have brought on a depression this autumn by lessening the trade, especially in the agricultural districts, and so providing a succession of business failures which always precipitate a panic."

### LABOR AT LOW POINT

(2) The labor situation last spring. Labor was extremely bad last spring. It was never less efficient than it was in the spring of 1920 nor was it more quarrelsome. If the decline in efficiency had continued, expense of production was sure to increase and financial embarrassments were certain to result.

(3) Bank credit was expanding last spring at an unprecedented rate in the interior of the country. The state banks of Michigan and Ohio expanded their loans 24 per cent in the four months between January 1 and March 4, 1920. At the same time New York banks were not expanding their loans at all but had gotten to the limit of their possible credit expansion.

### RATE HIGH

As a result of the New York banking situation the rate for borrowed money there stood at unprecedented heights and stock market prices were undergoing almost a valuation amounting to almost a panic.

When the New York banks have exhausted the possibilities of credit expansion and when the interior banks are still expanding rapidly, the financial position of the country is at a point where depression is sure to follow at an early date. (4) It seemed clear in the spring that the enormous foreign trade balances which kept industry going at unprecedented prices could not continue much longer.

### CROPS GOOD

"But several of these things have taken a turn for the better. The crop situation is immensely improved. The wheat crop is good. We will probably have the largest corn crop in our history. Potatoes are good, and in general the crop situation is excellent. The season is so far advanced now that there is little danger of anything happening to nullify these promises."

"The labor situation shows considerable signs of improvement as regards efficiency. Unemployment is due to the small amount of activity in the building trades, and due to the laying off of men in certain lines of industry, as in the woolen mills and rubber industry has improved the efficiency of labor and so de-

creased the cost of the labor element for the unit of output. sanbnisings3 :vt enw (own).

### LABOR IMPROVING

Labor is also less quarrelsome today than it was in the spring, and there seems no likelihood now of serious strikes this fall. The transportation situation should certainly improve with increased wages to train employees and increased rates. "The foreign trade balance has decreased. It was low last April but revived somewhat in May. reached a new low figure in June."

"Europe, in spite of her need for goods can no longer manage to find the means with which to finance exports in the volume she has been taking them from us hitherto. Imports from abroad have increased, and the trade balance has fallen in consequence."

### BANKS MORE CALM

"The most important factor of all, in a way is the check which has been brought about in the expansion of bank credits. During the first four months of 1920 the banks of Michigan and Ohio were expanding their loans at the rate of six percent a month. During May and June this expansion increased only one per cent each month."

"This has checked speculation the holding of goods for higher prices, building construction and has forced merchants to unload their goods at the best prices they could get."

"If credit and bank loans are kept at the present point, this movement will continue. Of course this has brought about some decrease in production at certain points and it has produced a few business failures. NOW IN DEPRESSION"

"A continued restriction of credit will probably produce more, so that, in a way, we are now going through a period of mild depression. This will, without doubt continue throughout the autumn. With the favorable elements as regards crops and labor however, any serious depression should be averted for one year, at least."

"One thing is certain, and that is that we will never again have a money panic. The Federal Reserve system can manufacture a large quantity of additional notes which will take care of all the demands during the crop moving seasons, so we will never see the spectacle of 1907 repeated. It has also power and ample reserve to grant a considerable expansion of credit if this becomes necessary for temporary purposes."

"But if prices fall even slightly the need for money and credit will not increase, but will shrink somewhat. In this event the Federal Reserve board will find that the present volume of bank credit outstanding is ample to meet the need of business."

## UNCLE TOM'S CABIN PLAYS MONDAY

William H. Kibbe's Uncle Tom's Cabin arrived in Xenia Monday for the performance at the Opera House Monday night under the management of the Standard Amusement Co. The story itself is probably the oldest yet being told on the stage, yet the great lesson it teaches, keeps its interest alive and the piece is ever popular. Children especially are fond of Uncle Tom, Topsy and Little Eva, and like to condemn Simon Legree. Kibbe's version is said to be unusually good.

## MAILBOX USED AS CAT HOME

Thomas Kieley, city mail carrier, rubbed his eyes and then prepared to run when he opened the big mail box at south west corner of Main and Detroit streets several days ago.

The receptacle is supposed to be used only for mail and that is why the mail carrier was on his toes and "raring to go" after one peep into the dark recesses of the mail box.

A pair of green eyes glared from the dark and cavernous fastnesses of Uncle Sam's property. Now Postman Kieley is no ouija board addict but a black cat with green eyes has no business taking a morning nap in a mail box and therefore if someone else finished collecting the mail that morning, it is not to be wondered at.

During the night some village cut-up had deposited the brunette feline in the mail box and was probably hiding around the corner when the Postman opened it.

## LOCAL QUOT TOSSERS DEFEAT TIPPECANOE CITY TEAM IN MATCH

Taking ten out of the twelve games played with the newly organized Tippecanoe City Club, the Xenia Quoit Club continued its winning streak Thursday night at the local grounds. The new club showed excellent form despite the defeat handed them and the players give promise of developing into experts at the game. The team will return here later for another game.

The local team under acting captain Roy Ary, took eight games out of twelve, from the experienced Milledgeville team on the local grounds Friday night, securing 220 points to 185 secured by Milledgeville. The local players were DeVoe Oglesbee, Davidson, Anderson, Dean, Watkins, Smith and Marshall.

The elimination contests by which it is hoped to determine the temporary champion of the local club will start Monday evening at seven o'clock the contest opening with the newest players and ending with the more experienced pitchers. Two new captains will have charge of the contests each night. This is the first elimination contest ever held on the local grounds and is arousing considerable enthusiasm among the players. All new players are expected to be on hand for the opening.

## BUILDINGS UNROOFED BY TORNADO WHICH TOUCHES COUNTY

Buildings were unroofed, crops damaged, and trees blown down, by a tornado, which passed over a narrow strip of territory in the extreme south western part of the county near Ferry in Sugar Creek township, Saturday afternoon.

Part of the house and the barn on the farm of Benton Edgington were unroofed. All the corn in the path of the storm was laid flat on the ground. No rain accompanied the wind. Rain fell heavily here Saturday afternoon and Saturday night, but little damage was done by the storm.

## THE EARTHQUAKE.

The other evening, while I wandered beside a Cheap John inland lake, and on Dame Nature's beauties pondered, the earth reared up and threw a quake. One moment everything was quiet, no leaves were trembling on the trees; the next there was the blindest riot, and I was jolted to my knees. Insanely things began to frolic, and mountains waited, and buildings, too; for when this planet has the colic the strangest marvels come in view. I thought, "It is the resurrections. Gabe must have blown his trumpet notes, and my renown's of such complexion I fear I'll line up with the goats. I wish I hadn't lied and cheated, when I swapped horses, in my youth, and dished up fiction, superheated, when people simply yearned for truth. I wish that I had gone to churches when Sabbath bells admonished me, and heard the pastors, from their perches, hand out the truth that makes men free. And I regret, O like the dickens do I regret the times now gone, when I went out and gathered chickens between the sunset and the dawn." Thus my dark record rose before me, and showed no gold, but heaps of dross; dark recollections came to bore me and made me feel a total loss. But presently earth ceased its quaking, my feet grew warmer in a trice, and I remarked, "It's time for taking a nice cold bottle from the ice."

## HEAVY DAMAGE WROUGHT BY CLOUDBURST IN CLARK COUNTY SATURDAY EVENING

### REPUBLICAN BODY OF COUNTY WILL AID WOMEN'S COMMITTEE

The Republican County Executive Committee appointed by the Central Committee, will cooperate with a woman's organization to be formed soon and will secure headquarters and start immediate activities in behalf of the campaign it was decided at the organization meeting of the committee held Saturday afternoon in the offices of the Smith Advertising Company.

Every member of the executive committee was present at the meeting which took place at the residence of L. T. Marshall, of this city was elected chairman, F. L. Smith of this city secretary and Erskine Winters also of here, treasurer. At the same time a committee on headquarters composed of W. H. Donges, J. A. Finney and W. S. Rogers was appointed and instructed to secure campaign headquarters immediately and to prepare to take an active part in the campaign.

A committee on finance was chosen, composed of S. C. Wright, chairman, J. E. Sutton, Roy Starbuck, Dr. R. Kent Finley, H. P. Howard, Fred Kershner, John Baughn, Herbert Fisher and Z. T. Hebble. A committee on speakers will be appointed at a later date it was announced.

In order to take up the part the women of the county are to play in the coming campaign, since they now have equal voting rights a meeting has been called by Miss McCullough of Dayton, who is state organizer for women sent out from Columbus for a meeting to be held in the Assembly room of the Court House Friday afternoon at four o'clock.

All women of Xenia and Greene County are invited to the meeting which will be addressed by Miss McCullough. At this meeting a women's organization will be perfected with which organization the executive committee has promised to work. The Republican campaign issues will be studied by the women and Miss McCullough will give instructions in voting. Mock elections will be held later to familiarize the women with their newly acquired voting powers. It is thought that all women of voting age will be permitted to vote without requirement of telling their age, it being merely necessary to inform the judges that they are "21 plus."

The members of the executive committee were all present including D. O. Jones, Lewis E. Stewart, P. L. Smith, Rev. T. H. Jackson, W. S. Rogers, H. P. Howard, Morris Sharp, C. L. Darlington, Thomas Donley, Howard Turnbull, L. T. Marshall, Walter Weller, Rev. Spencer White, J. A. Finney, Z. T. Hebble, Dr. R. K. Finley, Roy Starbuck, Walter Spahr, Fred Kershner, John Baughn, Herbert Conklin, J. E. Sutton, Erskine Winters, S. S. Wright, W. H. Donges and Herbert Fisher.

Heavy damage was wrought, Mr. and Mrs. S. B. Sloanaker of near Alberfelda were washed from their home and rescued by a deputy sheriff from a tree, city car line service was suspended all day Sunday in Springfield, tracks of the Erie railroad and the Erie culvert over Rocky Run were washed out an Ohio Electric car was demolished and one section of the National road destroyed, besides a heavy damage to crops, in a cloudburst and accompanying flood that struck Springfield Saturday evening.

The worst damage was in the valley of Rocky Run, a small brook-fed stream, that fed by the heavy down pour of rain, choked its bank, damming up against the Erie railroad culvert and finally carrying that massive stone structure out and washing over the lowlands. In its path it flooded the house of Mr. and Mrs. Sloanaker, aged couple who frightened by rising water in their house went upstairs and outside on the porch roof just in time to catch the branches of a big tree as the house was dashed to bits and carried off. From the tree they were rescued later by City Manager Parsons of Springfield and Deputy Sheriff Barton Minton and carried to safety.

Water flooded the power house of the Springfield Railway company to the depth of about six feet, several inches flooding the motors and making it impossible to produce power for city cars any time Sunday. Springfield residents were without car service all day, but a force of thirty men pumping out the power house and rewinding the motors, was expected to get the cars started all right Monday. Springfield and Xenia traction and steam lines were not hindered in operation by the flood.

A south bound Ohio Electric car without passengers reached that point on the tracks in the path of the huge wave that was let loose when the Erie culvert gave away and the car itself demolished at the side of the road. Forty feet of the National roadwaved in due to being washed out and necessitated the use of guards along the stretch to warn motorists of the danger.

Thousands of dollars worth of damage to crops throughout the county was reported, the heavy rain being general. A fund to rehabilitate Mr. and Mrs. Sloanaker has already been started in Springfield.

## CAMPAIGN AGAINST DRIVING WITHOUT LIGHTS IS BEGUN

E. E. Matthews was fined \$1 and costs in police court at one o'clock Saturday afternoon by Judge Smith on a charge of driving his automobile at night without lights.

Police are now conducting an active campaign to break up the practice of driving without lights and four arrests have been made since extra vigilance was established in the matter last week.

## NOTICE TO CUT WEEDS.

Weeds growing along sidewalks, in gutters, alleys or on vacant lots must be cut at once. This order will be enforced and penalties assessed by Police and Health Departments. 8-23-25

## COUNTY DEMOCRATS ORGANIZE CENTRAL COMMITTEE AT MEET

James M. Fletcher was re-elected chairman and Otto Hornick, secretary of the Greene County Democratic executive committee at the organizational meeting Saturday of the central and executive committees.

W. F. Croft, of Beaver Creek township, west precinct, was made chairman of the new central committee and Earl Simison, of Spring Valley, west precinct was made secretary of that central committee.

Six members were added to the executive committee, making that body number 15 instead of nine.

In the personnel of the central committee, there is a vacancy, a contest in Spring Valley village being undecided.

The new executive committee is: J. M. Fletcher, chairman, Xenia; Otto Hornick, secretary, Xenia; John Alexander, Yellow Springs; F. S. Linkhart, Xenia; H. A. Higgins, Xenia; F. M. Burrell, Xenia; O. C. Shirk, Xenia; R. R. S. Warren Robinson, Jamestown; J. C. Mitchell, Celarville; O. A. Wilson, Fairfield; W. F. Harper, Jamestown; W. A. Turnbull, Celarville; George Garver, Harry Sohn, Xenia; E. Dawson Smith, Xenia.

The new central committee is composed of:

Bath, Fred Shellabarger; Beaver Creek East, J. S. Harner; Beaver Creek West, W. F. Croft, chairman, Dayton R. F. D.; Bellbrook, O. W. Hook; Bowersville, D. L. Reed; Bowersville; Caesar Creek, E. D. Stroup, Xenia R. F. D.; Celarville Twp., Clayton McMillan, Celarville; Celarville Village, J. E. Midehell; Celarville; Fairfield, A. O. Wilson, Fairfield; Jamestown, Warren Robinson, Jamestown; Jefferson, B. A. Pender, Bowersville, Miami East, I. B. Preston, Clifton; Miami West, Milton Shaw, Yellow Springs; New Jasper O. C. Shirk, Xenia R. F. D. 8; Osborn, George Garver, Osborn; Ross, J. L. Spahr, Jamestown; Silver Creek, J. W. Sheeley, Jamestown Spring Valley East, J. H. Mann, New Burlington; Spring Valley West, Earl Simison, Secretary, Spring Valley; Sugar Creek, F. M. Burrell; Xenia North, J. W. Rilly; Xenia South, W. F. Haveland; Xenia City A., James Lunn; Xenia City B., Harry Donivan; Xenia City C., J. M. Fletcher; Xenia City D., C. F. Greenleaf; Xenia City E., Otto Hornick; Xenia City F., Chas. E. Weber; Xenia City G., William Jenkins; Xenia City H., George S. Dean; Yellow Springs, P. J. Moran.

**USE BABY FOR BASEBALL**  
Pasadena, Cal., Aug. 23.—H. F. Newell, commissioner of public safety, found three Mexican children playing ball with a small object. Investigation showed the "object" to be a 3-week-old baby.

## MAYS, WHO PITCHED FATAL BALL THAT KILLED CHAPMAN HAS HIT 55 PLAYERS

New York, Aug. 20.—(Special)—When members of the Boston and Detroit American league baseball clubs recently started an anti-Mays campaign, they started something that will meet with the indorsement of practically every American league baseball player.

Ever since Mays has been in the American league he has had the reputation of being a "bean ball" pitcher. In other words, it was alleged he would let drive with a pitched ball that was calculated to make the batsman dodge.

Against some pitchers who are noted for their control, the batsmen will stand close to the plate and even take a step or two forward in an effort to hit the ball before the curve breaks. Mays is one of a group of pitchers who always has worked to prevent any such familiarity with his offerings.

He has worked on the theory that if now and then he threw a swift ball close to the batter, the batsman would be cautious as to how close to the plate he stood and the farther the batter stood from the plate the easier it would be for a pitcher to retire him by throwing the balls on the outside. That's why several pitchers have resorted to the "bean ball."

Walter Johnson once was asked

why he did not use the "beaner" occasionally. His reply was: "If I hit a batter on the head, I might kill him."

Carl Mays entered the league in 1915. He hit five batsmen that year. The following season, he hit nine. He led the league pitchers in that respect in 1917 by hitting fourteen. He was second in 1918 when he hit eleven and second in 1919 when he struck ten. This year he struck six batsmen, Jamieson, Johnson and Chapman of the Indians, Pitcher Sam Jones of the Red Sox, Harold Shanks of Washington and Catcher Severein of St. Louis, Cleveland thus provided three or half his victims. During his six years as an American league pitcher he has hit fifty-five batsmen.

Whether he uses the "bean ball" intentionally Carl Mays has used his famous underhand ball of which he apparently has not sufficient control. It is a dangerous offering as is shown by the tragic death of Chapman.

**ESTABLISH NIGHT SCHOOLS.**  
Marion, O., Aug. 21.—Vocational training and night schools may be established here, according to a recommendation made to the school board by Marion's new superintendent, H. R. McVay, formerly of Sidney.

## IF BOLSHIEVIKI IMPOSE THEIR TERMS POLAND WILL BE LOST

Should the Bolsheviki succeed in imposing their terms on Poland it is believed the new nation would be practically destroyed. The Reds demand a

plebiscite in that part of Poland which formerly belonged to Russia, including Warsaw. That such a plebiscite would result favorably to Russia is the belief

in allied capitals. There would not be much of Poland left, and with the country reduced in size and overwhelmed with debt it would be difficult to survive.

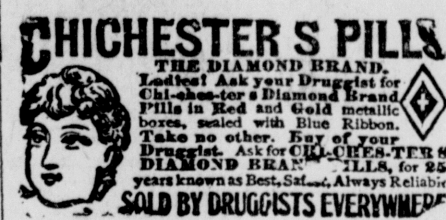

## Are You the Life of the Party?

When you join your friends in the afternoon or evening are you the "life of the party?" Or are you always tired, sluggish, sorry you came and are so grouchy that your friends also are sorry you came?

Now is the time of the year when many people are subject to such troubles. Your stomach and liver need a thorough cleansing and the time to do it is right now, before complications of a more serious nature develop.

Go today and get a 25-cent box of BLACKO Stomach and Liver Tablets. Take one immediately with two glasses of water. Without griping pains or unpleasant effects of any kind BLACKO Stomach and Liver Tablets will thoroughly cleanse your system so that in ten hours you will feel like an entirely new person.

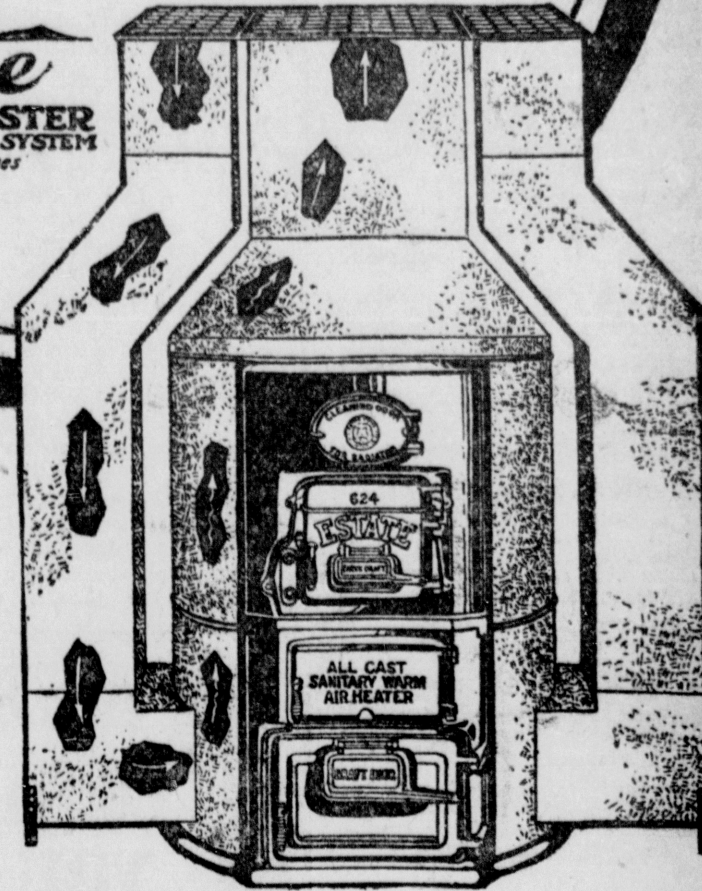

From your druggist, or mailed direct, postpaid. 25 cts. box of 28, with complete directions.

## Here's what you've been looking for

NO need to longer deny yourself the comfort, economy and convenience of Warm Air Heating. For the Estate System is almost as easy as a stove to install. Using less fuel than it takes to operate several stoves and fireplaces, it will keep every room of your home—upstairs and down—filled with gently circulating, moist and sterilized warm air. Average temperature of seventy degrees in zero weather. **POSITIVELY GUARANTEED.**

**Estate**  
SINGLE REGISTER  
WARM AIR HEATING SYSTEM  
The furnace that breathes

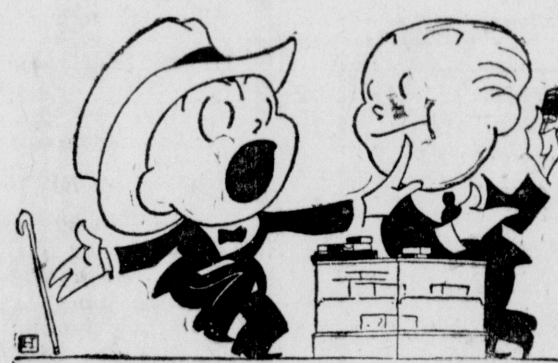

In the Estate System you get not only the one scientifically correct pipeless system, but an unusually heavy, high-grade heater with many exclusive features. All-Cast-Iron Construction; Ball-Bearing Grate; Swinging Vapor Tank; FIVE-YEAR GUARANTEED FIRE POT.

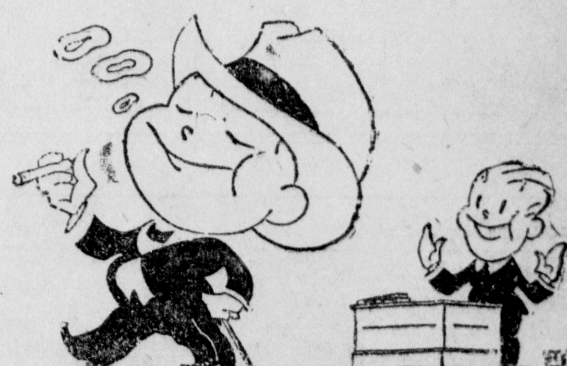

Come in and let us show you all the important advantages of this heating system. We know what it will do for you because we know what it has done for others. Our guarantee is added to the makers'.

## He was a poor actor but he got by!

THE OTHER day,  
I WAS in a cigar store.  
AND A man came in.  
TO BUY cigarettes.  
AND HE had a cold,  
AND WAS so hoarse,  
HE COULDN'T make.  
THE CLERK understand.  
JUST WHAT he wanted.  
AND HE got madder,  
EVERY TIME,  
HE DREW a brand,  
HE DIDN'T want.  
HE POUNDED the case,  
AND TRIED to talk.  
BUT HE only wheezed,  
AND HE made signs,  
WITH HIS fingers,  
BUT THEY didn't get over.  
AND FINALLY,  
HE THOUGHT he'd try  
TO ACT it out.  
AND HE closed his eyes,  
AND MADE his face,  
SERENE AND calm,  
AND SMILED and looked.  
ABSOLUTELY CONTENTED.  
AND THE clerk said,  
"I GOT you, Steve!"  
AND HANDED him.  
A PACKAGE of  
THOSE CIGARETTES.  
THAT SATISFY.

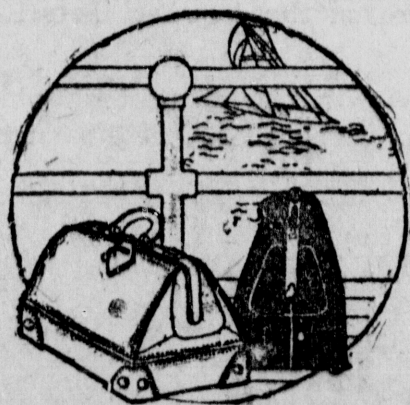

SATISFY? You said it! These fine Turkish and Domestic tobaccos and that can't-be-copied Chesterfield blend suitably with every puff!  
And the moisture-proof, glassine-wrapped special package keeps 'em the way you want 'em—fine, full-flavored, firm and fresh—always!

# BEAUTY CHATS

THE MORNING LOOK

The test of real beauty is never the way a woman looks in the evening. She has had all day to prepare herself for that, either by physically resting or mentally or nervously stimulating herself to look her best for the evening's frivolity. The great test of real beauty comes in the morning. If the eyes are blurred with sleep and the body droops for the complete rest that was denied it—that is the time to find out whether or not you are good looking.

An excellent time to study this subject for yourself would be to watch the other people in the train on your way to work; or if you do not go out to work, you might experiment by looking at yourself very impartially in the mirror. If you are pretty then you may be sure that you will pass as good looking at any other time of the day.

If you are not good looking early in the morning, here are a few suggestions that will start you off bright eyed and healthy skinned:

1. Possible, take a cool bath or shower.

2. Wash out the eyes with an eyecup and boric acid solution.

3. Go to bed earlier at night.

4. Get up a few minutes earlier and exercise.

5. Dress very carefully.

6. You need not necessarily do all of these. You may need only one or two of them to make you look fresh and attractive in the early morning sunlight—or the early morning mist, which is an even greater test. Beauty is not necessarily a matter of time—it is a matter of thought and forethought.

7. Freckled Face—Lemon juice rubbed into the freckles will act as a bleach. Peroxide of hydrogen, applied after washing the face with hot water and soap, will also bleach off ordinary

freckles. Very bad ones often yield when touched with a fine brush which has been dipped in a solution of peroxide of hydrogen and ammonia, equal parts.

8. Hee—Your weight should be 120. You can get rid of warts that are large enough by tying a horse hair around the base of them. The hair is tied very tightly and gradually strangles the wart, when it drops off without leaving any trace of a scar.

9. Warts come and go, especially on growing children, so their presence need cause no alarm.

10. Your red nose comes from digestive disturbances; you should see to that first, especially the bowel action. A nasal douche, night and morning, will also help. A little boric acid dusted over the freshly cleansed nose before retiring, is also recommended.

11. Blue Eyes—The whole condition of your scalp must have changed. Stop using the electric curlers and go back to the old method. If possible, find a becoming way of dressing the hair without resorting to curling it. Do this for several months and it will likely recover.

12. Wash out the eyes with an eyecup and boric acid solution.

13. Go to bed earlier at night.

14. Get up a few minutes earlier and exercise.

15. Dress very carefully.

16. You need not necessarily do all of these. You may need only one or two of them to make you look fresh and attractive in the early morning sunlight—or the early morning mist, which is an even greater test. Beauty is not necessarily a matter of time—it is a matter of thought and forethought.

### BURNING OF HOME CHARGED

Evansville, Ind., Aug. 29.—Harvey B. Tennison, 29 years old, an insurance agent of Mt. Vernon, Ind., after his arrest on a charge of arson, was released on bond. He is accused of having burned the family homestead near Burkin, Ind., last week. The house is said to have been insured for \$2,000.

### GEDDES TO SPEAK IN OHIO

Cincinnati, Aug. 23.—Sir Auckland Geddes, British ambassador to the U. S., has accepted an invitation to speak at the celebration of the one hundredth anniversary of the founding of the Ohio-Miami medical college of the University of Cincinnati on Nov. 4th.

**A TRIAL WILL CONVINCE YOU.**

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

## If You Are Easily Tired Out, Your Blood Needs Purifying

**Clogged-up Impurities Will Undermine Your Health.**

The first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown.

This whole condition is but the result of impurities in the blood that show that nature needs assistance in giving the system a general housecleaning.

Nearly everybody just now needs a few bottles of S. S. S. to cleanse the system of impurities.

S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.

Full information and valuable literature can be had by writing to Swift Specific Co., Atlanta, Ga.

## Our Boy's Shoes

One of the worst things you can do to a boy is to buy him poor shoes. You cut him off from one of the manliest virtues—personal pride. An investment in cheap boys shoes is always very unprofitable. Sizes 2½ to 6 priced at

\$4.00, \$5.00, \$6.00 to \$8.00

### BROWN CALF OR GUN METAL

Our good boys' shoes are the cheapest shoes to buy during these times when durability means much.

## We're not waiting for the frost on the pumpkin

to talk about Fall suits and we're not asking you to either.

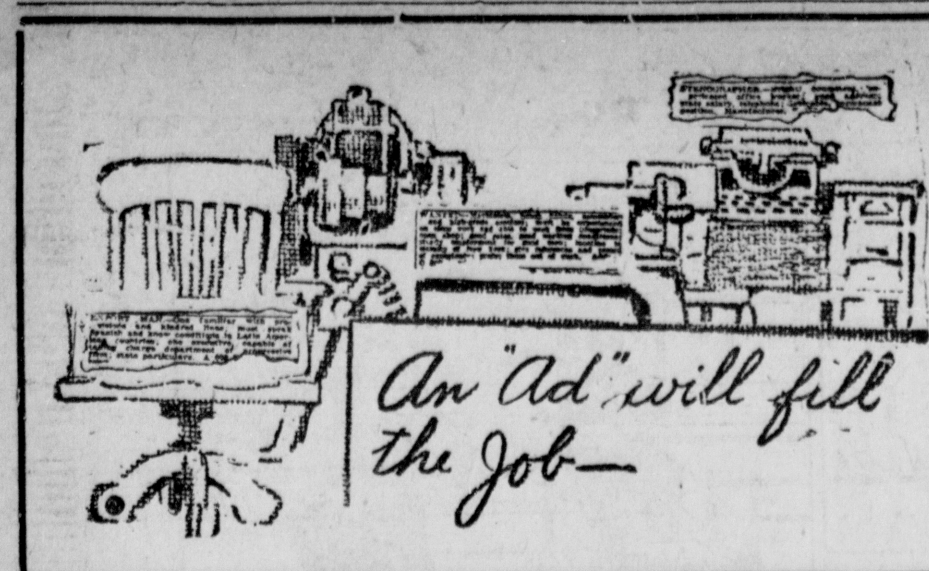

Young men are getting ready for school. Vacationists are getting ready to go back to work. Family men are measuring up their cellars—for coal. And it isn't to be expected that a live wire institution like this could sit around the cracker barrel and whittle.

We are ready today with the greatest showing of Fall suits that you have ever seen since it was stylish to have appendicitis.

2. Some of our best deposits come from farmers and other non-residents.
3. Who want their money to be safe, convenient for use and at the same time drawing 5 per cent interest.
4. The rate we have always paid.
5. Your personal check or a check payable to you is acceptable as a deposit.
6. All transactions are confidential.
7. The Buckeye State Building & Loan Co., Rankin Bldg., 22 West Gay St., Columbus, O.

### BANK CLERK SAYS DRECO PROVED A GOOD INVESTMENT

Relieved of stomach disorder, dizzy spells, nervousness; gave him a fine appetite, and gained 12 pounds by taking Dreco.

Hardly a day passes but what some good responsible person openly declares Dreco has given them splendid results. Professional men, farmers, machinists, bankers, railroad men, nurses all say Dreco has proven a great blessing to them by restoring their health and strength; for instance Mr. Shafeloff Snodgrass, a highly thought of employee of the Central National Bank of Chillicothe, O., says:

"I am glad to openly endorse Dreco for the good it did me. I have taken three bottles and gained twelve pounds. In addition to this Dreco worked my liver off, thereby overcoming dizzy spells I used to have. I sleep well and have a good appetite now. Dreco proved a good investment for me and I gladly recommend it to the public."

Any remedy that restores the natural functions of the human body is a health-making remedy. The use of Dreco, the great herbal medicine, tends to restore the appetite, to procure natural digestion, tends to re-energize the circulation and nutrition of the whole body. Lean, haggard, bloodless people begin to gain weight, strength and flesh at once from taking Dreco, as they themselves declare in signed statements. All druggists now sell Dreco and it is being especially introduced in Xenia by Sohn's Drug Store.

### NATIONAL GUARD COMPANY IN XENIA NOW BEING RECRUITED BY OFFICERS

For the first time since the old Company I, Third Ohio National Guard, left this city for the Mexican border, later was federalized and on its return from France demobilized Xenia and Greene County is to have a military company. Captain Nathan S. Clark of Yellow Springs, formerly an enlisted man in the old I Company and, later a Lieutenant when that company was federalized into the 148th Infantry, is back of the movement to reestablish a national guard company here and is being aided by local people interested in the project. Captain Clark, with recruiting volunteers is now busy accepting enlistments in the new Company, which will be known as Company E, First Regiment United States National Guard, but which later will be given a new Regimental number. In order to establish the Company Captain Clark must secure a minimum of 50 recruits or maximum of 75 the company being reduced to the pre war basis in point of number.

Ex-service men are especially wanted by the recruiting officers; but other enlistments are also acceptable. These former soldiers will be given the option of enlisting for one or three years, as they wish, while men on their original enlistment must sign to stay in three years. In the National Guard service, they will drill once every week, be uniformed and thoroughly equipped by the national government, and be given a fifteen day camping trip every summer.

Captain Clark, who is to head the new Company, enlisted in Company I, and returned from border duty, a Sergeant. He was later commissioned a Lieutenant serving overseas. In that capacity and after demobilization he became connected with the Hanes, Gilmore and Arbor Company a bond house of Columbus, for which he was district manager with headquarters at Springfield.

Recently Captain Clark resigned his connection with that company to accept the commission of Captain in the new United States National Guard service, which is taking the place of the old state guard, and differs from it in that the members are liable to call for duty any place rather than just in this state, which was the nature of the old Ohio National Guard service. Captain Clark is anxious to secure the best recruits possible to form the nucleus for the new company.

Leigh Nisbet, of this city, who was formerly a Lieutenant in the service and military instructor at Grinnell College, Iowa, will be one of the Lieutenants and junior officer to Captain Clark. According to the new organization program sent out, there will be one Captain, one First Lieutenant, one Second Lieutenant, one first sergeant, one supply sergeant.

Marion, O., Aug. 21.—E. H. Roth, a railway mail clerk since Grover Cleveland's first administration as president, yesterday retired from the service under the new federal retirement law. He ran between Marion and Salamanca, N. Y., and was known all along the line as "Tammany" because he is such an ardent Democrat.
